

# Matching

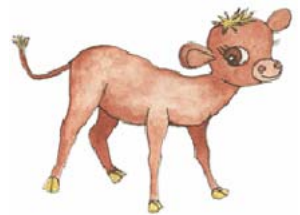

The Feed program makes sure our pets and livestock have safe food to eat.

Our laboratory also verifies the nutritional content of feed products.

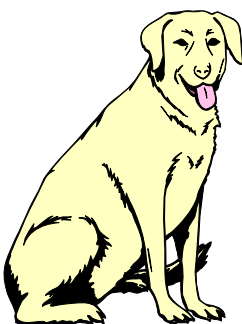

Do you know what the young animals of these kinds are called?

- |               |              |
|---------------|--------------|
| Pig _____     | Cattle _____ |
| Chicken _____ | Horse _____  |
| Dog _____     | Cat _____    |
| Goat _____    | Sheep _____  |
| Goose _____   | Frog _____   |
| Deer _____    | Duck _____   |
| Fish _____    | Coyote _____ |
| Opossum _____ | Rabbit _____ |
| Raccoon _____ | Skunk _____  |

- |         |          |            |          |          |          |           |
|---------|----------|------------|----------|----------|----------|-----------|
| Tadpole | Whelp    | Chick      | Shoat    | Filly    | Kitten   | Stot      |
| Lamb    | Froglet  | Gosling    | Kit      | Pup      | Bullcalf | Lambkin   |
| Foal    | Nanny    | Joey       | Fry      | Calf     | Fawn     | Bunny     |
| Piglet  | Kid      | Cosset     | Polliwog | Duckling | Pullet   | Farrow    |
| Heifer  | Cockrell | Fingerling | Billy    | Colt     | Cub      | Shearling |

Use each term. Some can be used more than once.
