**Custom Mix Sheep Feed**

**MEDICATED**

**Active Drug Ingredient:** LASALOCID

This feed contains ____ grams per ton Lasalocid.

(Grams per ton divided by 2 is equivalent to milligrams per pound.)

<table>
<thead>
<tr>
<th>Use Level</th>
<th>Indications for Use</th>
</tr>
</thead>
<tbody>
<tr>
<td>20-30 g/ton (0.0022-0.0033%)</td>
<td>For the prevention of coccidiosis caused by <em>Eimeria ovina</em>, <em>Eimeria crandallis</em>, <em>Eimeria ovinoidealis</em> (<em>Eimeria ninakohlyakimovae</em>), <em>Eimeria parva</em> and <em>Eimeria intricata</em>. Feed ______ to ______ lb./head/day to provide 15 to 70 mg Lasalocid/head/day. For sheep maintained in confinement.</td>
</tr>
</tbody>
</table>

**Caution:** The safety of Lasalocid in unapproved species has not been established. Do not allow horses or other equines access to Lasalocid as ingestion may be fatal. For Type A articles or Type B feeds: Mix thoroughly with grain and/or roughage prior to feeding. Feeding undiluted or mixing errors may result in an excess Lasalocid concentration which could be fatal to cattle and sheep. In addition, inadequate mixing (recirculation or agitation) of liquid Type B feed may result in an excess Lasalocid concentration which could be fatal to cattle and sheep.

**UK Reg. Services – 11/15**
