

**Custom Mix Feed  
MEDICATED**

**Active Drug Ingredient: (S)-METHOPRENE**

**This feed contains \_\_\_\_ g/ton (S)-METHOPRENE**  
(Grams per ton divided by 2 is equivalent to milligrams per pound)

**Check Use Level & Indication for Use**

<b>22.7-45.4 mg/100 lb. bodyweight/month</b>	<b>Cattle (beef and dairy)</b> Insect growth regulator for continuous feeding during the fly season to prevent the development of horn flies in manure of treated cattle.  Feed at the rate of ____lb./100 lb. bodyweight/day to provide the correct amount of (S)-Methoprene.
--	---

**CAUTION: Keep out of reach of children. Discard empty container according to local regulations. Never reuse empty container.**

**Please Note:**

**FDA STATUS: No feed mill license required. Product is a food additive. 40 CFR 180.1033 (EPA) (S)-Methoprene is exempted from the requirement of a tolerance in or on all food commodities when used to control insect larvae. When used in medicated feeds, medicated feed application requirement is determined by regulatory status of the drug.**

**EPA STATUS: Product is a pesticide when used in non-medicated feeds. EPA registration is required for feeds offered for sale except when custom blended per the provisions of 40 CFR 167.3. In medicated feeds, the product is a food additive and no EPA registration is required when the source of (S)-Methoprene is an EPA-registered product.**
