Fertilizer Tonnage Distribution in Kentucky (July 2007 - June 2008)

A total of 846,149.03 tons of fertilizer were distributed in Kentucky for the 2008 Fertilizer Year. 587.25 of those tons were distributed in "unknown" counties (county codes were not listed for the product on tonnage reports.)

DISTRIBUTION OF FERTILIZER SALES IN KENTUCKY

July 2007 through June 2008

INTRODUCTION

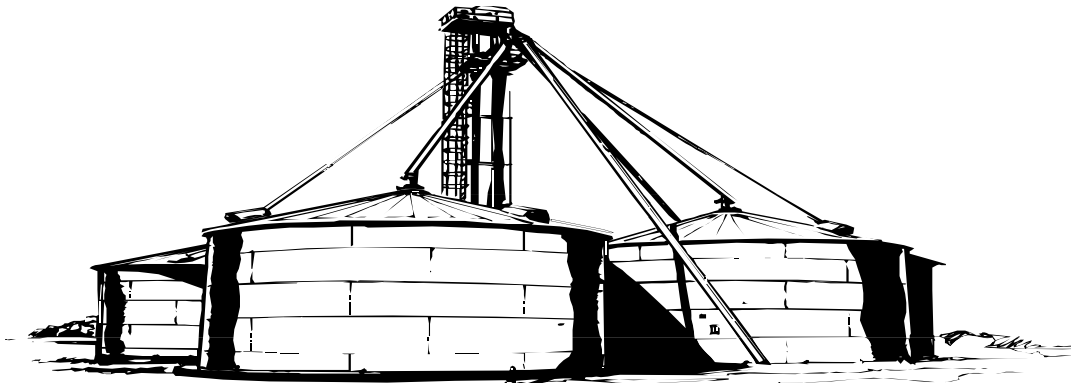

This report provides data on fertilizer movement in Kentucky for the period of *July 2007 through June 2008*. The report shows total distribution for the current period and the previous comparable period; top grades and materials for the state; and, the distribution of total fertilizer and the top 10 grades by county.

All tonnage data in this publication are compiled from quarterly fertilizer reports submitted by companies registered or licensed to sell fertilizers in Kentucky.

We are now using the UFTRS Version 4 to publish our data. Our tonnage reports are also available on our internet site. Go to: <http://www.rs.uky.edu/>, click on "Fertilizer". Your suggestions to improve the reports are welcome. Please tell us what you want in a tonnage report and we will try to furnish it. Special requests are welcome. Please call D. L. Terry, 859/257-2668.

DATA DESCRIPTION

Some of the quarterly reports received from the companies show only the county to which the fertilizer was shipped. Since fertilizer shipped to one county may have been used in another the information shown may not exactly represent fertilizers used in a given county. Some of the reports reflect receipts of fertilizer materials by the blender and not actual sales to farmers; therefore, what appears to be sales of materials may only be a consequence of the way the materials are reported. Some of the materials may subsequently be sold as part of a blend.
